Education

2025 – present **Post-baccalaureate Studies, College of Science, California State University, Stanislaus,** Turlock, Bioinformatics, Organic Chemistry with labs, Microbial Ecology, Quantitative Analysis lab.

2016–2021 : **BS, Environmental Studies & Art, University of Oregon, Eugene.**
General Chemistry with labs, General Biology with labs, Calculus, Ecology, Environmental Ethics

Publications

Journal Articles

2026 **Arielle Names, Holly Moffett, Naomi Inthirath, Jessica Mojica, Delia Moreno, Marcos Martinez, Taylor Hedley, Cassandra Haakma, Priscilla Garcia, Ally Watkins, and Tricia Van Laar,** Draft Genome Sequences of Three Bacteria with Antimicrobial Activity Isolated From Pond Sediment on a University Campus, In *Microbiology Resource Announcements* (MRA00053-26R1).

Work & Research Experience

John L. Warwick, MD

April, 2026 – present **Receptionist,** Providing excellent customer service, managing front desk operations, and supporting administrative and clinical staff to ensure efficient office workflow.
Developing a deep multi-modal architecture for accurately predicting protein interaction information from biomedical text.

Independent

2022-2024 **Cildcare Provider.**

Promoted collaboration and ensured open communication with parents to align on goals, strategies, and child-rearing practices; Coordinated and organized school projects and extracurricular activities, managing logistics.

Whole Earth Nature School

2022 **Instructor.**

Presented state-funded outdoor environmental studies and environmental science lessons to 5th and 6th grade students.

University of Oregon, Department of Art

2021-2022 **Studio Assistant.**

Managed bi-weekly kiln schedules including programming and monitoring; Organized and processed student artwork and projects.

Willamette-Laja Twinning Project

2021 **Instructor & Liason.**

Facilitated engagement and presented science lessons on watershed ecology, wetlands and riparian zones, shared migratory bird biology, water quality, and basic hydrology of the Willamette River and Laja River watersheds; conducted outreach; developed curriculum.

Ditch Projects

2020-2021 **Gallery Assistant.**

Led project installation and deinstallation for art exhibitions and performances; Communicated and presented information about exhibiting artists to gallery visitors.

Orpheus Island Research Institute

2019 **Undergraduate Researcher.**

Conducted field surveys and collected environmental data, investigating density-dependent population growth model in *Tridacna gigas* clams.

Fellowships & Awards

2016-2021 Recipient of **University of Oregon Apex Scholarship** for **scholastic achievement**. Assisted in undergraduate research and maintained a cumulative GPA of 3.4 throughout duration of award, which provided 10,000 USD annually.

Academic Achievements & Recognitions

2021 Invited to exhibit work in group show at **Ditch Projects, Eugene, Oregon.**

Computer skills

Programming Languages R for Digital Art

Bioinformatic Tools Galaxy– FastQC, fastp, SPAdes, QUAST, FilterFASTA, CheckM2, Prokka

Database NCBI BLAST

Position of Responsibility

2021 **Liason of Willamette-Laja Twinning Project, IIT ABC.**

April 1-5, 2019 **Organizer, GIAN Workshop on subjects, IIT ABC.**

Teaching Experience

2022 : **General Environmental Science and Ecology for 4th and 5th Graders, Whole Earth Nature School.**

2021 : **Watershed and Migratory Bird Ecology for 1st through 4th Graders, Willamette-Laja Twinning Project.**
